Cyber Security is Everyone's Responsibility

Dear Students,

We increasingly rely on the internet and digital devices for daily tasks like communicating with each other, accessing sensitive data, personally identifiable Information (PII), intellectual property data, governmental or financial services, and working and learning remotely.

The extensive use of digital devices and sharing information online can open you up to various cybersecurity dangers. Understanding how to protect yourself from these dangers is crucial. The best way to fight cybercrime is through awareness and prevention.

In order to educate our students and staff about common cyber threats like social engineering scams, phishing, ransomware attacks and other malware designed to steal important data, the college has scheduled a *"Cyber Security Awareness Training Program"* exclusively for UG students of all streams from 20/02/2023 to 03/03/2023.

This training program will be free of cost. The participating students will receive Participation Certificate on successful completion of the program. The interested students should register themselves for this Training Program by filling the Google Form, the link of which will be shared with you on your class WhatsApp group.

The details of "Cyber Security Training Program" will be shared with participating students after registration process.
